Question 141125-000005

Communication History

I have been reinstated as the Acting General Counsel of the International Bank for Reconstruction and Development by 188 Ministers of Finance. The Board of Governors of the World Bank and International Monetary Fund have also requested me to exercise their functions under paragraph 6 of the Bilateral Minesfield Breakthrough Successor Agreement.

During his resignation speech, Secretary Hagel did not address the rift in NATO caused by Germany. As previously discussed with the Defense Attache in Tokyo, the gold in the Global Debt Facility is on offer to the Secretary of the Army to replace the unconstitutional Federal Reserve Notes. I have requested the Command Inspector General on Okinawa to assist in a claim for the recovery of the gold from the US military-controlled areas in the Philippines.

The Secretary of the Army is in charge of safeguarding the nation's money under Lincoln's General Order 100, the Lieber Code. Unilateral surrender through a crash of the Federal Reserve Note is not an option. Neither is permanent gold backwardation. As I discussed with Secretary Hagel in 2008, <https://s3.amazonaws.com/khudes/lss.pdf>, the clear course for the United States and its partners is what John F. Kennedy and Ronald Reagan had agreed, and what is now before the Secretary of the Army: <https://s3.amazonaws.com/khudes/Monetary+Agreement1.pdf>

I look forward to your response.

Sincerely,
Karen Hudes

Question 140815-000002

Communication History

There is a clear fork in the road for the Department of Defense--rule of law or the impending failure of Federal Reserve Notes, inability to defend Japan, loss of Germany, and break-up of NATO. I discussed this analysis, which has a track record of 95% with Secretary Chuck Hagel: "Playing cat and mouse with these serious governance issues at the World Bank is a security risk to the world order."

Dear Kai Fook Yong,

Thank you very much for this. I appreciate your offer, but it is not possible to operate on a "platform" unless that platform includes the United States of America. I am copying the American Bar Association, together with this "retweet", so that we will be able to move forward on all fronts together.

This is also to inform the American Bar Association that an American citizen is asking me to help him sue the ABA for deceptive trade practices. His complaint is garbled, but his intent is clear: he is unhappy about the deception to the American public concerning the "Federal Government Corporation".
