Correcting Clerical Error in the DC Circuit Court of Appeals

Dear Evan,

I agree with you that it is necessary for Secretary of Defense Chuck Hagel to court martial the Chair of the Joint Chiefs of Staff Martin Dempsey and the Inspector General of the Department of Defense Jon Rymer for aiding the enemy under U.C.M.J. 104, 50 U.S.C. §698 (1952) <https://s3.amazonaws.com/khudes/Twitter10.19.14.pdf>

An accurate power transition model from the Department of Defense has been predicting that this is 90-95% likely to happen.

Dear Ms. Smith,

Thank you for your request via Linked-In, through which I have learned that you were manager of a Department of Defense project on the Sentia stakeholder analysis. Jacek Kugler ran an analysis of rule of law at the World Bank in 2004 (<http://kahudes.net/wp-content/uploads/2012/05/board-of-governors.pdf>, commencing with page 16). In 2007 I warned the Treasury Department and US Congress that the US would lose the Gentlemen's Agreement to name the President of the World Bank if the US did not bring the International Bank for Reconstruction and Development into compliance on the capital markets. In 2010 the US lost the Gentlemen's Agreement <http://www.imf.org/external/np/cm/2010/042510.htm>

(see paragraph 6)

I warned the 50 state governors, Chief Justices of state Supreme Courts, state and federal attorneys general, as well as the Judicial Conference, that the Sentia analysis is now predicting a currency war with 90-95% accuracy because the clerk in the District of Columbia Circuit Court of Appeals refused to recognize the settlement of my bondholder lawsuit by the 188 Ministers of Finance on the Board of Governors of the International Bank for Reconstruction and Development. <http://kahudes.net/wp-content/uploads/2013/01/ljudicialconference1.pdf>

The UK wants to know why it is taking so long to correct this simple clerical error. Once the UK and European Parliaments published my statements, <http://www.publications.parliament.uk/pa/cm201213/cmselect/cmpubadm/writev/publicpolicy/m03.htm> , <http://www.publications.parliament.uk/pa/cm201213/cmselect/cmintdev/writev/402/ica102.htm>

<http://www.parliament.uk/documents/commons-committees/public-administration/Complaints-1-consolidated-13-sept.pdf>

and <http://kahudes.net/wp-content/uploads/2012/10/EuropeanParliament.PDF> the Sentia analysis predicted resolution of the problem in favor of the rule of law.

Sincerely,
Karen Hudes

Jacek,

Perhaps we are on the way to avoiding a currency war.

Here is where we now stand after I posted our email discussion of 11.17.14 on Twitter
<https://t.co/eFzQaszPT3>

[@KarenHudes](https://twitter.com/KarenHudes)

After I called the Army Enterprise Service Desk to request a contact, they labeled my account as spam: <https://s3.amazonaws.com/khudes/Twitter11.19.14.pdf>

When I told the public affairs unit in the Army that the above Tweet was now viral on the internet, the Army then gave me the direct email address of the Secretary of the Army. I then

forwarded this to the Secretary of the Army:

I have explained to the Army's Public Affairs Office that I needed to have your contact information in order to negotiate the Monetary Agreement with the United States and replace Federal Reserve Notes with the Treasury Dollars on deposit in the Global Debt Facility TVM-LSM-666.

Please inform the members of the National Taxpayers Union. I expect that the state of emergency will be repealed, that the autonomy of the states, counties, and municipalities will be restored, and that the 10 FEMA districts, along with the rest of the Metro 1313 agenda abolished in short order. This will require active participation by the NTU membership.

Karen Hudes

Dear Ms. Conway,

These posts on my social media go viral: <https://www.facebook.com/karen.hudes.10/>

@karenhudes,

A power transition model from the Department of Defense has predicted with 90-95% likelihood that the United States will join its allies, including Germany, in asserting the rule of law over the network of global corporate control:

<http://philosophyofmetrics.com/2014/02/18/sdrs-and-the-new-bretton-woods-part-six/comment-page-1/#comment-584>

This means that Secretary of Defense Chuck Hagel is going to court martial Jon Rymer and Chuck Dempsey, and I am going back to my desk at the World Bank in order to distribute the gold to the US that John Kennedy was intending to use when he signed the Green Hilton Agreement ten days before his assassination.

I have informed the BRICS and the G-77 that I am going to go back to my desk at the World Bank. I need a counterpart in the US Army at this time.

Thank you for posting this to Twitter.

You said I think the banking cartel can hang on. Actually, I didn't even address that issue. You said I don't understand economics. I didn't say anything about economics. I am not implying anything about the cartel or about economics or about anything else. I am a very literal, say what I mean, mean what I say person, with no implications intended. I wrote to you about your communication. That's all.

This time, your rebuttal left out everything I actually wrote, and therefore misses my point again. Let me see if I can make this more clear.

1. Because Dempsey and Rymer have broken the law with impunity, then we obviously don't have rule of law yet.
2. When they and the rest of the corporate and government criminals are actually taken out of positions of power, and replaced with people who follow the Constitution, then we will have rule of law.
3. Your credibility suffers when you say that your exposing them is the same as us having rule of law.

That is not a broad generalization against your credibility. I think you have a lot of credibility. It is a very specific point about a specific statement you made. That's all it is. I believe details and language are important. I have a lot of respect for you, and therefore I'm taking the time to point out this detail. I hope my explanation of my literal approach to communication is helpful in understanding what I'm actually saying.

Thank you for your consideration,

Evan
